Double Stack Jack

Through collaboration with major companies in the North American railroad industry the Double Stack Jack has been specifically designed to maximize safety during railcar lifting activities. The 30" 40 ton lifting capacity and safety dogs, are rigorously tested to ensure a safe lift and the convenient fork pockets allow for quick and easy maneuvering and positioning of the DSJ.

Design Features

- Mechanical Safety Mechanism
- Extendable Control Pendant
- 40 Ton 30" Lift Capability
- 10.2 hp gas engine
