www.hydra-tech.net

Hydra-Tech offers hands-on, manufacturer-led training for all our lifting systems. Learn proper operation, setup, and maintenance to improve safety, extend equipment life, and standardize procedures.

WHAT YOU'LL LEARN:

- **Setup & Operation:** Correct use of your equipment
- **Safety Practices:** PPE, pre-use checks, proper handling
- **Troubleshooting & Maintenance:** Routine inspections, oils, filters, and problem-solving
- **Hands-On Demonstrations:** Real equipment practice and Q&A

WHY IT MATTERS:

- Aligns technicians to manufacturer-recommended procedures and maintenance
- Reduces inconsistent field practices
- Strengthens safety culture and equipment reliability
- Provides manuals, guides, checklists, and diagrams for field reference

FORMAT:

- **Classroom Overview:** Theory, procedures, safety, and best practices
- **Hands-On Shop:** Setup, operation, and live demonstrations

AVAILABILITY:

- On-site at your facility for any Hydra-Tech product line, or at our Calgary facility

Lift smarter, work safer.
